Outbreak Response

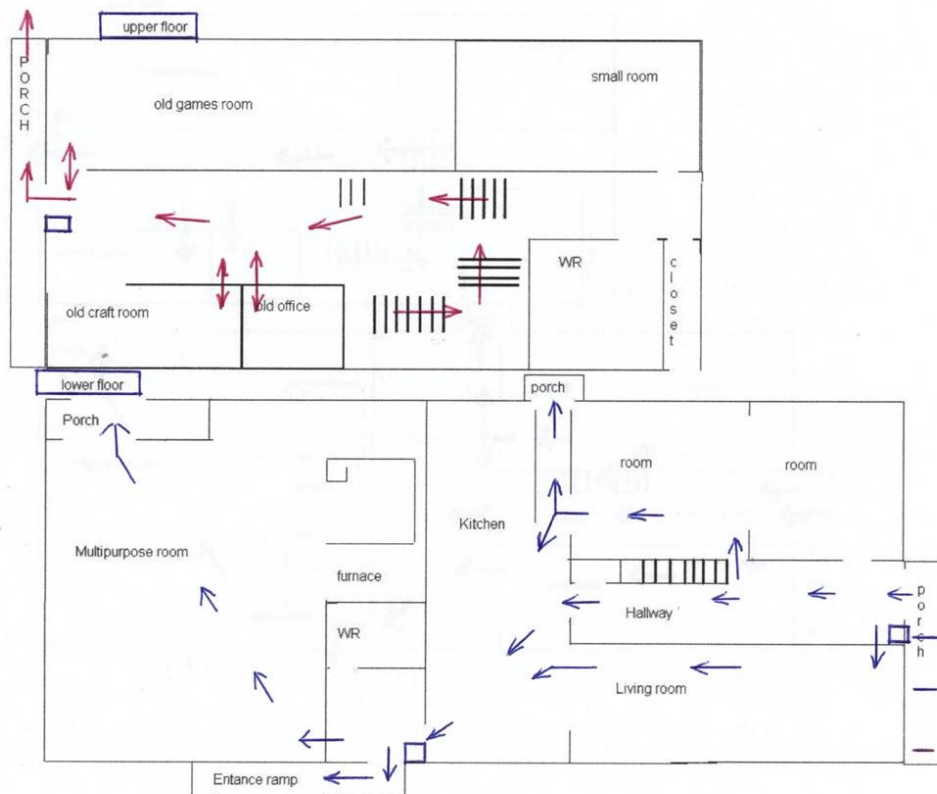

The DCMS is committed to the following process in the event of a COVID-19 Outbreak:

Early detection of symptoms will facilitate the immediate implementation of effective control measures. In addition, the early detection and immediate implementation of enhanced cleaning measures are two of the most important factors in limiting the size and length of an outbreak. An “outbreak” is two or more cases; a “case” is a single case of COVID-19.

1. If a case or outbreak is reported to the instructor or Administrator, both in conjunction with the Music Director, will have the authority to modify, restrict, postpone, or cancel any or all school activities.
 - a. Email covid@dcms.ca
 - b. phone: 604-946-1280 (during office hours M-T 1 – 6 pm)
2. If staff (including volunteers) or a participant reports they are suspected or confirmed to have COVID-19 and have been at the school, the administrator will implement enhanced cleaning measures to reduce risk of transmission.
3. The instructor or administrator will implement the illness policy and advise individuals to:
 - a. self-isolate
 - b. monitor their symptoms daily, report respiratory illness and not to return to activity for at least 14 days following the onset of fever, chills, cough, shortness of breath, sore throat and painful swallowing, stuffy or runny nose, loss of sense of smell, headache, muscle aches, fatigue and loss of appetite, or any other suspected symptom.
 - c. use the COVID-19 self-assessment tool at BC COVID-19 Self-Assessment Tool to help determine if further assessment or testing for COVID-19 is needed.
 - d. Individuals can contact 8-1-1 if further health advice is required and 9-1-1 if it is an emergency.
4. In the event of a suspected case or outbreak of influenza-like-illness, the person will immediately report and discuss the suspected outbreak with the Medical Health Officer (or delegate) at our local health authority. The DCMS Illness Policy will then be implemented.
5. If the DCMS is contacted by a medical health officer in the course of contact tracing, all individuals associated with the school must cooperate with local health authorities.
